land is in the deep - est part of me.
land is in the deep - est part of me.

Can a man love a country? Can a woman love the land?
You can't hold it in your arms and you can't hold it by the hand.
It's a love for when you're here and when you're far across the sea.
It's the love I give my country in return for what my Scotland means to me.

This is my land ... Caledonia ...

Call it "Scotland", call it "Alba" or the "Land o' the Leal"

Land of factory and shipyard, of heather and sea ...

I belong to the land I live in

and the land is in the deepest part of me

It's the Scots that make the land and it's the land that makes me free.
It's the cities, it's the towns and it's the fields and it's the sea.
Not an accident of birth and not a coronation stone.
It's the love of land and people makes me Scottish from my skin right to my bone.

We are Scotland's men and women, every race and every hue.

Let's be judged for what we say and let's be judged for what we do.

Not for rank and not for money, not for patriotic cries.

Let equality and freedom be the start and be the end and be the prize.
